

MetaCloud
You're never far from your lab

Bring the lab to your mobile!

Get location-agnostic access to real-time visualization as well as historical logs, statistical process control charts, infographics of analysis results and diagnostic data of your spectrometer on Mobile and Web applications.

Leverage connectivity and Industry 4.0
benefits for your spectrometer!

MetaCloud is a cloud-based application and solution designed and developed by Metal Power for its customers, providing users with all manner of benefits.

Surf through our offerings list of instruments, accessories, services, spares, and consumables. Place a quick quotation request – and you can track this too!

Quote Request

Access, download and share spectrometer reports in PDF, Excel and Word formats from any point in the world, using any device.

Report Downloads

Get live details on your spectrometer's analysis and diagnostic screen from anywhere in the world

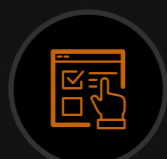

Real-time View

Leverage insights from visualization tools like charts and graphs to view and understand trends, outliers, and patterns of your analysis data

Statistical View

Log and track your service requests. View any service case and report across the instrument's lifecycle as stored in our CRM

Service Logs

Store/backup your database on a fully secured platform for easy recovery. (MetaCloud's platform conforms with EU guidelines on privacy and security)

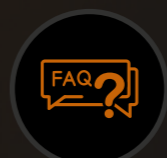

Data Backup & Recovery

Get immediate access to our latest software updates across our product range, ensuring your instruments are always running seamlessly on the latest and best software

Software Downloads

Save money with a self-help knowledge base to solve technical queries and issues.

FAQs

View the status of your OES and its critical systems, enabling better preventive maintenance and dramatically reducing time and effort spent in troubleshooting

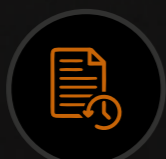

Diagnostics

Full-screen dashboard across real-time and historical data to provide an immediate snapshot of data and key insights to those in a hurry.

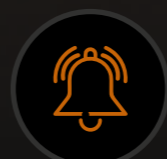

Dashboards

Look up historical data; sort, filter and scroll through to get exactly the data points / sets that you want

Historical View

Get timely updates and reminders on Service offerings, instrument coverage status and new offerings from Metal Power

Notifications

CRM

CRM Integration

Integrated with Metal Power's CRM which enable access to service history and all service reports

MetaCloud Mobile App

Seamless accessibility across all major mobile and tablet Operating Systems and Browsers
